

Dear sir;

I am one of the **inhabitants** (*residents*) of Mehrabad airport neighborhood ground and I am **used to live** (*have been living*) here more than ten years. Recently we are informed that a non-studied, old – fashioned plan has been prepared by the government for developing the airport and ;consequently, the number of flights will **be increase** rapidly after the execution of plan.

Obviously, if this news **be** (is)correct, the abnormal sound pollution **would be occurred** (occur) and it might come out of standard which is not proper for our urban surviving. As you know our city is one of the biggest metropolitan cities and proper , all-aspect-seeing plans could lead us to the developed city ;otherwise ,it could lead us to urgent and critical position which is illegal and ;eventually, level of satisfaction **will be declined** because of mentioned reasons.

I know that you are a daily of repute by independent visions ; therefore , writing an article in your newspaper , explaining our problem could have vital role in enforcing the government to put away its indifferent attitude postpone the plan , or even terminate it . I sincerely ask you for following up this national problem as you are literally our tongue for yelling our request.

The citizens and I are waiting for reaction and affectionate reply by your press.

Faithfully yours,
Mehdi,
